

#### DNS.3.4. DNS Zone Distribution Data Center

**Does or will this RSP have at least two Tier III (as defined here: <https://uptimeinstitute.com/tiers>) or equivalent data centers having no inter-dependencies?**

Yes, we do. We operate 6 geographically dispersed data centers that meet the Tier III requirements as defined by the Uptime Institute (<https://uptimeinstitute.com/tiers>).

We have provided detailed information about the data centers to evaluators. This version is redacted to protect confidential information.
